

UNLEASH YOUR INNER HERO

"I believe in United Way because it brings different members of the community together to unite in one common goal: the needs of others. United Way has personally impacted me because it allowed me to pursue a mission of my own. As a teacher, I know how vital reading is to a successful education. I wanted to make sure all children have access to books. I was able to collect and distribute books donated by everyday heroes of the community through United Way."
